

MISCELLANY

Seasons.  
Oh, the cheerful budding time,  
When thorn hedges turn to green,  
When new leaves of elm and lime  
Cleave and shed their winter screen;  
Tender lambs are born and "baa,"  
North wind finds no snow to bring,  
Vigorous nature laughs "ha, ha,"  
In the miracle of spring.  
Oh, the gorgeous blossom days,  
When broad flag-flowers drink and blow,  
In and out in summer blaze  
Dragon-flies flash to and fro;  
Ashen branches hang out keys,  
Oaks put forth the rosy shoot,  
Wandering herds wax sleek at ease,  
Lovely blossoms end in fruit.  
Oh, the shouting harvest weeks,  
Mother earth grows fat with sheaves,  
Thrifty gleaner finds who seeks;  
Russet golden pomp of leaves  
Crowns the woods, to fall at length;  
Bracing winds are felt to stir,  
Ocean gathers up her strength,  
Beasts renounce their dwindled fur.  
Oh, the starving winter lapse,  
Ice-bound, hunger-pinched and dim;  
Dormant roots reveal their saps,  
Empty nests show black and grim,  
Short-lived sunshine gives no heat,  
Undue buds are nipped by frost,  
Snow sets forth a winding-sheet,  
And all hope of life seems lost.

A good joke is told on one of our clever saloon-keepers, "under pressing circumstances," to be lost.  
A short time ago, a representative of the Green Isle stepped into the saloon of the person above alluded to, and with a countenance full of inquiry, said:  
"An' have you got any good rye whiskey?"  
"Yes, very good; the best in town," said the saloon man.  
"An' have you got any half-pint bottles, my good man?"  
"Yes," was the reply.  
"An' will you please fill one with your best rye whiskey for me?"  
"Of course," said the obliging dealer; and after reaching for the required flask, and spending a full half hour cleaning it, repaired to the cellar, drew half a pint of his Bourbon, and presented it to the gentleman in waiting.  
Pat took the bottle, raised it to his lips, swallowed at least half of its contents, and then, after making the appropriate face over it, said, in a very confidential tone:  
"Will you please to sit this to one side till I call for it?"  
The saloon-keeper, smelling a large-sized rat, carefully stowed away the said half-filled bottle. The fellow never called for it, but took this novel way of obtaining a drink.

WESTERN ELOQUENCE.—"But, as I said, we have proven to you where the town line is. Yes, gentlemen of the jury, there it is, and there will it remain forever; and all the ingenuity of my learned brother can never efface it—can never wash it out. No, gentlemen, he may plant one foot on the outermost ring of the planet Saturn, and plant the other on Arcturus, and seize the Pleiades by the hair and wring them dry, but he cannot wash out that town line—never, never!"

A story is told of a duchess in Paris, whose infant had been sent to the country to nurse, and who was brought back when four years old. Soon after his return, the duchess, walking out with the boy, was amazed to hear him exclaim: "There, mamma, is a good house," and running from her into the court yard, he took off his cap and began to sing. The little duke had been trained by his nurse to beg as a ballad-singer.

A school-master tells the following "good one." I was teaching in a quiet country village. The second morning of my session, I had time to survey my surroundings, and among the scanty furniture I espied a three-legged stool. "Is this the dunce-block?" I asked a little girl of five. The dark eyes sparkled, the curls nodded assent, and the lips rippled out, "I guess so—the teacher always sits on it."

A Postscript.—"I love to look upon a young man. There is a hidden potency concealed within his breast which charms and pains me." The daughter of a clergyman happening to find the above sentence at the close of her father's manuscript as he had left it in his study, sat down and added:  
"Them's my sentiments exactly, papa, excepting the 'pains.'"

"Who made the world?" asked a teacher of a little boy who had not been long in school. The boy shook his head and said nothing. The teacher threatened to whip him unless he answered. The boy, feeling compelled to a confession of some sort, broke forth, "Well, master, I made it, but I'll never do it again."

A priest was called upon to pray over the barren fields of his parishioners. He passed from one enclosure to another, and pronounced his benediction, until he came to a most unpromising case. He surveyed the sterile acres in despair. "Ah!" said he, "brethren, no use to pray here—this needs manure."

"See Naples, and then die," said somebody; but a bachelor friend reminds us that China is the place for a family man to die in, for in that country the physician who kills you has to support your family.  
To prevent your hair from coming out—never let your wife catch you kissing the servant girl.

FOR CONSUMPTIVES.—The Philadelphia Ledger asks, if it occurred to the company which proposes to run regular steamers up the Amazon from Para, for a distance of 2,500 miles from its mouth, that it will be able to transport passengers direct into the inland valley of Jauja, where the consumptive will obtain restoration of health and a cure of a too generally incurable disease? The voyage, though long, may be made almost without changing vessels, and will be found neither tedious nor debilitating. It will introduce travelers into some of the most magnificent scenery in the world. It has been known to the natives, from time immemorial, that a removal of consumptive patients, even in the stage of well-marked ulceration and cavities in the lungs, to the Valley of Jauja, at a height of 10,000 feet above the sea, was followed by an almost invariable suspension of the disease. This fact is corroborated by the experience of physicians of Peru at the present time. From the statistics of Lima, published in 1858, it appears that nearly eighty per cent. of the cases of consumption sent to the Jauja Valley are cured.

TEXAS.—People who are determined to emigrate, and who haven't embarked for Honduras, would do well perhaps to turn their ardent eyes in the direction of Texas. The extract below, is from a Houston letter, of a recent date:  
"Texas has been favored with the most pleasant, favorable and delightful winter known for many years. We enter on the spring season buoyant with hope, and (as compared with our sister Southern States) with exceeding flattering prospects. During the last three months a large immigration has found its way into our country, and the stream seems unabated. Our farmers are energetically preparing for a large crop. Industry, energy and public spirit, seem rife in the community. Railroads are being pushed forward in various directions. Schools are flourishing. Churches are well sustained. Politics are generally avoided, and progress—physical, mental and moral—seems to be the order of the day."

A blundering or wilful compositor and proof-reader on the Davenport (Iowa) Gazette recently caused that journal to appear with the following despatch: "The Committee of Ways and Means have decided to put Chase and Butler on the free list." It should have read "cheese and butter."

George III, speaking to the Archbishop Sutton of his large family, used the expression, "I believe your Grace has better than a dozen?" "No, sire," replied the Archbishop, "only eleven." "Well," replied the King, "is not that better than a dozen?"

Just So.—Somebody says man is like a snow-ball. Leave him lying in idleness against the sunny face of prosperity, and all the good that is in him melts like fresh butter in the dog days; but kick him round, and he gathers strength at every revolution.

The Chief of the Capitol Police at Washington recently informed his subordinates that they would have to take an ice-clad as well as an iron-clad oath. This was in reference to guarantees for their sobriety as well as for their loyalty.

A preacher, who had been a printer, said in one of his sermons that youth was like a comma, manhood like a semi-colon, old age like a colon, to which death puts a period.

A gentleman having knocked an umbrella from the hands of a fellow not very well versed in etiquette, asked to be excused, whereupon the greeny replied, "You are welcome!"

A woman said in a Police Court, the other day, that before marriage her husband pretended to be much struck with her, but now she was every day struck by him.

"Miss, what have you done to be ashamed of that you blush so?" "Sir, what have the roses, and the strawberries, and the peaches done, that they blush so?"

Bennett calls Barnum a humbug. The precedent is laid down in the celebrated case of Pott vs. Kettle, cited in the Comic Blackstone.

Speaking of George III, Erskine remarked that what we call firmness in a king, we call obstinacy in a donkey.

At a recent public meeting in Manchester, [N. H. ?] it was resolved that "all persons in town owning dogs shall be muzzled."

TYPOGRAPHICAL.—A young lady told a typo friend that he might print a kiss on her cheek, but he mustn't publish it.

"That motion is out of order," said the chairman of a meeting, when a rowdy raised his arm to throw an egg.

A country paper speaks of a man "who died without the aid of a physician." Such instances are very rare.

Why is a hotel ghost like a State constable? Because it is an ins-spectre.

Almost every young lady is public-spirited enough to have her father's house used as a court-house.

The young lady that kept her word has found it very useful.

The worst organ grinder—a hollow tooth that plays the deuce.

The Raleigh (N. C.) Sentinel says that the wheat crop in that State is promising. The indications are unfavorable for a good fruit crop. In many sections, however, peaches and early fruits are in bloom, and vegetation generally is making its appearance.

A Mrs. Sarah Lee Porter, in an action against the city of Dubuque, Iowa, recently obtained a verdict, making the Mayor and Council personally responsible for the claim of over \$9,000, because they failed to incorporate it in the annual tax levy.

There are so many office-seekers now in Washington, of both sexes, in destitute circumstances, and with no hope of obtaining employment, and quite a number of them, it is said, are soliciting private charity to enable them to return to their homes.

John B. Gough has received an offer from England of \$1,500, gold, for one lecture a week in London, the course to be kept up for a year. That would make him \$62,400.

On the 28th of February, Daniel Jackson, an old servant of the late Henry A. Jamison, died near Flintstone, Md., at the advanced age of 114 years.

FINE CIGARS.

TWENTY THOUSAND CIGARS, from common to best manufactured—the finest assortment in the city.

The Great American Blood Purifier. THE QUEEN'S DELIGHT!

THE QUEEN'S DELIGHT, the great American Alternative and Blood Purifier, is the most perfect vegetable compound of alteratives, tonics, diuretics and diaphoretics; making it the most effective purgative, rejuvenating and blood-cleansing cordial known to the world.

In introducing this new and extraordinary medicine to the public, observation leads us to remark that too little attention is paid to the "life of all flesh," the blood. Many diseases, and too many complaints, which have their origin in a vitiated state of the blood, are treated only as symptoms and results; whereas, if the remedy had been applied to enrich the blood and render it pure, both cause and effect would have been removed. The Queen's Delight is offered to the afflicted as a sure remedy for those diseases arising from an impure condition of the blood. It has a direct and specific action upon that fluid, and consequently renders the blood pure. It is said, on high authority, that "man no sooner begins to live than he begins to die, and that the characteristics of the living organism are ceaseless change and ceaseless waste." It is obvious, therefore, to every reflecting mind, that unless the blood is pure, in supplying the waste tissues with material, it must be the cause of innumerable ills and constitutions disorders, such as Scrofula, Rheumatism, Herpetic Disorders, Consumption, Inflammations, Fevers, &c. Life and health is only to be maintained by the circulation of pure arterial blood.

We therefore advise every one whose blood is in the least vitiated by indolence or excess, and whose constitution is impaired by disease and is suffering from Rheumatism, Liver Complaint, Consumption, Scrofula, King's Evil, Carbuncles, Boils, Itching Humors of the Skin, Erysipelas, Skin Diseases, Tetters, Roughness of the Skin, Pimples, Blisters, Pains in the Bones, old Ulcers, Syphilis and Syphilitic Sores, Indigestion, Inflammation of the Bladder and Kidneys, Pains in the Back, General Debility, and for all complaints arising from deficiency and poverty of blood, to use the Queen's Delight.

Females of delicate constitution, suffering from weakness and depression of mind in consequence of those complaints which nature impresses at the period of change, have a pleasant and sure remedy in the Queen's Delight.

Children whose fair and ruddy complexion gave early promise of health and beauty, but too soon become blanched and pale by some hereditary taint of the blood, will have the rich boon restored by using the Queen's Delight.

The unacclimated and persons traveling into warm countries will find the Queen's Delight a great protection from all malarious affections and diseases which originate in a change of climate, diet and life.

The extraordinary and unprecedented cures performed by the Queen's Delight Compound is attracting the attention of every one, not only at home, but abroad. The merits of this compound are being felt and appreciated everywhere. Hear what they say of it in New York: "It is a remedy of much importance and value, exerting an influence over all the secretions, which is unsurpassed by any other known alternative. It is extensively used in all the various forms of primary and secondary syphilitic affections; also, in scrofulous, herpetic and cutaneous diseases, in which its use is followed by the most successful results."

Its properties as a remedy were first introduced to the notice of the profession by Dr. Thos. Young Simons, of South Carolina, as early as 1828, as a valuable alternative remedy in syphilitic affections, and others requiring use of mercury. Dr. Simons' statements have been endorsed and extended by Dr. A. Lopez, of Mobile, and Dr. H. R. Frost, of Charleston. From these reports in favor, there seems no reason to doubt the efficacy of this medicine in Secondary Syphilis, Scrofula, Cutaneous Diseases, Chronic Hepatic Affections and other complaints benefited by alterative medicines.

For sale wholesale and retail by FISHER & HEINTSH, Druggists, Columbia, S. C.

The Adornment of the Head—The Hair Restorer.

GRAY HEADED people have their locks restored by it to the dark, lustrous, young tresses of youth, and are happy. Young people, with light, faded or red hair, have these unsatisfactory colors changed to a beautiful auburn, and rejoice. People whose heads are covered with dandruff and humors, use it, and have clean coats and clear and healthy scalps. Bald-headed veterans have their remaining locks tightened, and the bare spots covered with a luxuriant growth of hair, and dance for joy. Young gentlemen use it because it is richly perfumed. Young ladies use it because it keeps their hair in place. Everybody must and will use it, because it is the cleanest and best article in the market. For sale by FISHER & HEINTSH, Druggists.  
Feb 3

HEINTSH'S CELEBRATED GERMAN HORSE POWDER!

For all Diseases to which a Horse is Liable.

THE various diseases to which that noble and useful animal, the horse, is subject, and the little knowledge that is known of them by farriers and ignorant ostlers, have occasioned many remedies to be offered to the public under different forms, with high encomiums, and sanctioned by dignified names. Some of these are injurious; others, at best, of little use, and many entirely worthless, and do not meet the want. A good medicine, free from objections of this kind, has long been desired by many gentlemen who have valuable horses. We therefore offer the only good medicine—the true "GERMAN HORSE POWDER," which has proved so efficacious in all the diseases. It is prepared from the original recipe of Dr. Heintsh, of Germany. Its extraordinary virtues are attested by thousands, and for fifty years has stood, and still stands, first in the estimation of all experienced farriers and agriculturists as the best medicine for the horse.

It is recommended for horses fondled by eating to excess or drinking cold water when heated, or such as have symptoms of glanders or are exposed to the infection by being with other horses, for indigestion, distemper, hide-bound, drowsiness, loss of appetite, inward sprains, debility, wasting of flesh, sore eyes, swelled legs, grease, mange, surfeit, cold coughs, for exhaustion from work. It carries off all foul humors, purifies and cools the blood, and prevents horses becoming stiff and foundered. It is a stimulant for weak stomachs, and renders the limbs and skin soft and fine, giving a smooth coat to the hair. Ask for "Heintsh's German Horse Powder." For sale by FISHER & HEINTSH, Druggists.  
March 7

Gibson's Patent Cultivator Plows.

JUST received, a supply of these SUPERIOR IMPLEMENTS—the advantage from using which is FIFTY PER CENT. in horses and hands. For sale by the agents,  
March 3 J. & T. R. AGNEW.

NOTICE.

Office Seaboard & Roanoke R. R. Co., PORTSMOUTH, March 22, 1867.

IT has been understood by the officers in charge of transportation via the Seaboard Inland Freight Route, that letters addressed to the Railroad Agent at Portsmouth, on the subject of freights, are unanswered, and that, in consequence, causes of delay are not explained and claims for losses and damage unsettled; and as the Seaboard and Roanoke Railroad Company, who are the forwarding agents for the line, are satisfied that these causes of complaint are not due to their agents, but to the inaccuracy of the mails, in order to test this subject, the Manager of the Seaboard Road requests that whenever persons have written to the undersigned, Agent of the Seaboard Road, and after waiting a reasonable time for a reply, have not received it, that they will address him a letter, enclosing a duplicate of the letter they had previously addressed to the Agent. If this is complied with, and the Manager of the Seaboard Road receives the letter, he gives assurance that it shall be promptly investigated and replied to.

This Air-Line Freight Route claims to be the most expeditious and direct route, and avoiding, to a great extent, "marine insurance" also to the

CHEAPEST FREIGHT ROUTE BETWEEN THE NORTHERN CITIES AND NORTH AND SOUTH CAROLINA.

As freight consigned by the companies' connecting steamers is forwarded from Portsmouth within twenty-four hours after being landed, there is no reason for delays; and although freight may sometimes be mis-sent, it will in such cases be promptly traced, and if not found, will be paid also to the consignee.

The companies forming this line cannot be responsible for the rapid transportation of freights, or for charges upon it, unless sent from Boston by the Boston and Norfolk Steamship Company, and of Centro Wharf; from New York, by the "Old Dominion" Steamship Company, Pier 37, North River; from Philadelphia, by Clyde's Line of Steamers, 14 North Delaware Avenue, or via the "Annapolis" Line. Depot, Philadelphia, Wilmington and Baltimore Railroad; and from Baltimore, via the Bay Line Steamers, foot of Union Dock.

For freight shipped to the Seaboard Company by schooners or by other steamship lines, the companies cannot be responsible until landed on their wharves. Persons writing about freight that has not reached them, will please be careful to state the date of shipment, by whom shipped, from what place, by what line of steamers, and, if possible, enclose a copy of the through receipt to

JAS. W. McCARRICK, Trace Agent Seaboard Inland Air-Line, Portsmouth, Va.

READY-MADE CLOTHING.

THE ladies, gentlemen and young people of Columbia, who may be in want of "SOMETHING TO WEAR," are respectfully and earnestly invited by the ladies of the Industrial Association to call at their Work-room in the Female Academy, and examine the articles which they have now ready for sale. Some one will always be found ready to exhibit the ready-made garments and to receive orders from those who may wish to have work done neatly and promptly.

The object of the Association is to furnish constant employment to those who, having been impoverished by the war, now depend on the needle for daily bread. Does not such an object commend itself to the hearts of our citizens? Or must the anxious applicants for work be told that our merchants in Northern-made garments, and that there is, therefore, no more work for them? Shall it be said that such an Association as this cannot be sustained in the capital of South Carolina? Jan 19

Canned Goods.
